EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2025-2029	B.Sc. in Statistics	Ramakrishna Mission Residential College Autonomous	9.30
2025	WBHSE(XII)	Ramakrishna Mission Vidyalaya Narendrapur	95.4%
2023	WBSE(X)	Mahesh Sri Ramakrishna Ashram	94.42

PROJECTS

• BUILD BANK, IIT DELHI

aug 2026 - ongoing

Underbanked and Financial Inclusion, Giving Onboarding Trust For Gig Workers (ARTHASETU 2.0)

[Github](#)

– **AUC-ROC : 99.5%, XGBoost, Random Forest, K-mean Clustering, Security -7 layers (Highest Level), ZKP, FHE, PQC**

– ARTHASETU 2.0 is an adaptive financial inclusion platform built for the BUILD BANK 2026, IIT DELHI (Track 1: Financial Inclusion for the Underbanked). It addresses the challenge of 300+ million credit-invisible gig workers in India who lack traditional credit histories — despite having verifiable trust signals like rental payments, medical expenses, and bill payment histories.

The platform uses a statistical user-profiling engine that dynamically adapts interface, guidance, and pacing for first-time financial users. It combines machine learning (XGBoost, 99.5% accuracy) with 10-layer post-quantum security (ZKP, FHE, PQC) to build trust while protecting user data.

• Flood Evacuation Using the PSO Algorithm And Flood Prediction With Random Forest Classifier

May 2026 - ongoing

IDEAS TIH ISI, Indian Statistical Institute, Kolkata

[Github](#)

– **AUC-ROC : 96.7%, Stratification Division : (10.84% + 77.13% + 12.03%), Reduction Of Evacuation Time : 33%**

– The analysis encompasses 10,000 geo-spatial observations across India's complete geographic extent (8°N to 37°N latitude, 68°E to 97°E longitude). A multi-factor flood risk model incorporating rainfall intensity, river discharge, elevation, water levels, and population density was developed and achieved 96.7% accuracy when validated against 5,057 historical flood occurrences.

TECHNICAL SKILLS

• **Programming Languages:** C, C++, Python, MSSQL, R

• **Tools and Frameworks:** Dev C++, Codelite, Visual Studio, Google Collab, Kaggle, SQL Server Management Studio, Microsoft Visio, Congos, Power BI

• **Libraries and Packages:**

Matplotlib, Pandas, Numpy, Seaborn, Scipy, SQLAlchemy, Statmodels, XGBoost, Plotly, restAPI, Flask, Django, Streamlit

• **Operating Systems:** Windows & Android

KEY COURSES TAKEN

• **Statistics & Computer Science:** Introduction to C, Fundamentals of Computers, Object Oriented Paradigm in C++, Data Structures and Algorithms, Python Programming, Operating System, Database Management System, Statistical Methods, Distribution Fitting, Data Modelling, Data Analysis, Discrete Mathematics, Numerical Methods, Computer Networks

POSITIONS OF RESPONSIBILITY

• **Member Of Student Council (Vidarthi Sabha),** Vidarthi Sabha Core Committee, Library Section, Ramakrishna Mission Residential College (Autonomous)

2025 - present

• **E-Student Membership,** at Royal Statistical Society, UK

2026 - present

ACHIVMENTS

• **Leetcode Rank 4,76,886 [Over 300+ Question Solved at LeetCode, Achieve the 50 day badge],** Over 100 Database problem Solver

2026

• **Problem Solver on the SQLPad Platform,** 100+ Question Solved on the Platform SQLPad,

2026

• **Problem Solver in DataLemur (150+ database Interview Question Solved),** Over 100 Database problem Solved

2026
